

1682: the business of innovation conference

October 16, 2024

Five Below Headquarters, Philadelphia PA

[sponsorship tiers + details](#)

sponsorship tiers

1682 returns to explore the success and setbacks related to innovation initiatives and how AI has influenced those programs and their ROI metrics.

The intimate event of roughly 140 people will consist of a highly curated group of speakers, moderators and attendees that are primarily business owners and decision makers.

- **Instagram Stories:** Four mentions in Instagram Stories.
- **Largest Logo:** Sponsor's logo displayed as the largest and most prominent in social media posts on both platforms.

Thought leadership opportunities within the program

Lightning talk - A Lightning Talk is a quick, engaging presentation lasting 5 to 10 minutes. It allows sponsors to share key insights, innovative ideas, or succinct messages with the audience. This format is perfect for delivering impactful content in a short amount of time, ensuring the audience remains captivated.

Product demo -The Product Demo session allows sponsors to showcase their latest products or technologies live. This interactive format allows for a detailed demonstration, highlighting features, functionality, and benefits. It's an excellent way to engage with the audience and demonstrate the real-world applications of your innovations.

Fireside chat -A Fireside Chat is an informal yet insightful conversation between a sponsor representative and a conference host or industry expert. This relaxed format allows for a deep dive into topics such as company vision, industry trends, and personal experiences. It's designed to be conversational and engaging, offering a behind-the-scenes look at innovation and leadership.

Panel moderator -As a Panel Moderator, the sponsor representative will guide discussions among a group of expert panelists. This role involves posing thought-provoking questions, facilitating dialogue, and ensuring the conversation remains on track and engaging for the audience. It's an excellent opportunity to position your company as a thought leader and drive discussions on key industry topics.

venture awards

To honor the spirit of innovation, we are excited to present start-up companies with a chance to win a \$5,000 grant during the Venture Awards.

Three (3) companies from incubators in the Philadelphia area will have a chance to pitch their ideas to 1682 conference attendees. The audience will act as advisors (not critics) to give free advice to those participating. Audience members will vote to decide the winner of the grant.

Tier 4 sponsors will have co-presenting sponsorship status for the Venture Awards. A portion of the sponsorship funds will also go towards the \$5,000 grant.

our speakers

We are currently finalizing our lineup, but the inaugural conference included speakers from organizations such as Comcast, Oracle, Accenture, and CHOP, to name a few.

our attendees

Our attendees will consist of a curated group of decision-makers, thought leaders, and innovators from some of the most prominent and impactful organizations in the region. The target is to ensure that attendees are just as accomplished as the presenters on stage. This will help create an environment for fostering conversations and networking connections between thought leaders and decision-makers.
